Allowable Subject Matter

4> The following is an examiner's statement of reasons for allowance: Claims 23, 26-28, 32, and 33 were indicated as allowed in the final rejection, filed on 11/19/2007. By way of the current amendment, Applicant has canceled the non-allowed claims. systems interface. The systems interface consists of separate protocol and transaction servers, the protocol server for accessing the intranet and the transaction server for accessing the legacy system whereby accessing the intranet involves bypassing the transaction server. The foregoing features for accessing both a legacy system and an intranet are not found in the prior art. Nor would it have been obvious to have modified the prior art to arrive at the currently claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
